TRANSPORTATION—These are sales-yard prices. On shipments outside of Willamette Valley the buyer pays the express charges. On shipments within the Willamette Valley add 15 cents for first \$1.00 and 5 cents for each additional \$1.00 on order and we will prepay the parcel post, except for trees too large for parcel post, such as combination Cherry trees, Walnuts above 6 feet and large shade trees. These latter will either be cut back to mailing sizes or else they go forward express at the buyer's expense.

APPLES

	Rate Each	Rate 10	Rate 100
1 yr. 4 to 6 ft. whip	45c	40c	40c
2 yr. branched.....	60c	60c	60c

Varieties: (in approximate order of ripening).

Red Astrachan—Very early cooking apple.
Red June—Very early. Good quality.
Yellow Transparent—Yellow. Best summer apple.

Gravenstein—Large striped apple. Best early fall apple.

Red Gravenstein—Like common Gravenstein except its color is solid red.

King—Large, striped red. A very good apple to follow Gravenstein.

Jonathan—Red. Medium size. Bears young and regularly. Good quality.

Grimes Golden—Best quality yellow apple.

McIntosh—A late fall apple.

Winter Banana—Yellow apple. Good cooking.

Wagener—Bears very young. Good keeping.

Delicious—A fine red striped apple. At its best between Thanksgiving and Christmas.

Red Delicious—Same quality as Delicious but with solid red color.

Yellow Delicious—Bears very young. Keeps well.

Quick Bearing Varieties—Some varieties produce fruit much earlier in life than others. To get quickest results use Wagener, Jonathan and Yellow Delicious.

Spitzenberg—Highest quality. Good keeper. Red. Season, Dec., Jan., and into February.

Baldwin—Red. Good keeper.

Northern Spy—Red. Juicy. Fine quality.

Yellow Bellflower—Yellow. An old-time cooking apple.

Snow (Fameuse)—A New England late fall and winter apple. Fine eating.

Winesap—A good, red late winter apple.

Roxbury Russett—An old-time russeted apple. Good size. Good keeping.

Rome Beauty—Bears heavy and regularly. One of best keepers and best baker.

Red Rome—A solid red apple having all other characters of Rome Beauty.

Stayman Winesap—Good keeping. Dull red color.

Yellow Newtown—Late. Fine keeper. High quality.

Hyslop Crab Apple—Medium size. Striped.

Transcendent Crab Apple—A fine crab.

OLDER FRUIT TREES

Fruit trees over two years old are usually a poor investment, because of the shock due to heavy loss of roots. Our 3 and 4-year-old trees, however, were dug when two years old and root-pruned and re-planted. They now have a mass of fine roots near the main stem and transplant without shock. We offer apple and plum trees only, in the older trees. Our assortment is not complete so it is well to include second choices in sending in order. Assortment of 4-year trees is quite limited. These trees are generally too large for parcel post and must be shipped by express.

3-year trees, \$1.00 each.
4-year trees, \$1.25.

PEARS

(Price—same as Apple)

Bartlett—The great canning Pear. Ripens in August. High quality. If you can have but one pear choose Bartlett.

Bosc—A long-necked, russeted pear, of highest quality. Ripens a month or six weeks after Bartlett.

Cayuga—A new highly recommended variety.

Comice—A large late winter pear. Highest quality.

D'Anjou—A winter pear of highest quality.

Seckle—Small, brownish-green. Finest quality. Early winter.

Winter Nelis—Small. Russeted. Late keeper. High quality.

DWARF APPLE AND PEAR TREES

These tree are ideal for the backyard gardener who is limited in space yet who wishes as large a assortment of variety as possible.

These trees are grown on roots that check their size. A four or five-year-old tree may be only 4 or 5 feet high. However these dwarfs bear very superior fruit, size and quality often excelling that produced by standard trees. A yard that will care for only two standard apple trees will handle half a dozen of these dwarfs. Why not grow a family orchard of dwarf trees in your back yard?

You can train these trees into old country "espalliers." Plant one against a fence, a trellis or against the garage wall. Utilize otherwise wasted space to produce fruit, fine fruit too. You will get a big kick growing fruit from espalliers.

Varieties available:
Pears—Bartlett and Seckle.
Apples—Yellow Delicious, Gravenstein, Rome, King and Red Delicious.
1-year trees, \$1.00 each.
5-year Bartlett Pears, \$2.50 each.

NECTARINES

(Prices—same as Peaches)

The Nectarine tree looks like a peach tree and the pit is like a peach pit. The skin, however, is smooth, like that of a plum. The flesh is rich and smooth and has a flavor all its own. A most delicious fruit that is little known here, but which will thrive wherever the peach thrives. Every home planting should have a Nectarine tree.

New Boy.
Stanwick.
Quetta.

PEACHES

	Each	10 Rate	100
Selects	60c	60c	60c
4 to 6 ft.	45c	40c	35c
3 to 4 ft.	40c	35c	30c

Varieties listed in approximate order of ripening.

Mayflower—White juicy flesh. Earliest. For eating raw only.

Triumph—Semi-cling. Earliest yellow-meated peach. Heavy and regular bearer.

Golden Jubilee—A new freestone variety that ripens a little ahead of Rochester.

Rochester—(Apparently identical to the variety being sold as Pacific Gold.) One of the earliest ripening freestone peaches. Yellow meat. Most planted variety in Puget Sound region. Very hardy.

Slappy—A yellow-meated free stone. One of highest quality canned.

Champion—A fine free stone, white meated peach.

Early Crawford—Most used peach in Oregon. Free stone, fine quality.

Carmel—A high quality white meated peach. Unexcelled for dessert use.

Elberta—A fine commercial variety but too much leaf-curl for home planting.

Improved Elberta—Best of all canning varieties but subject to leaf curl and requires careful spraying. Heavy bearer. Yellow freestone. A little earlier than the common Elberta.

J. H. Hale—One of most popular varieties. Fruit very large. Productive.

Muir—A yellow-meated freestone that is a fine canner.

Late Crawford—A large freestone that ripens about a month after Early Crawford.

APRICOTS

(Prices—same as Peaches)

Where given the full peach spraying program, Apricots will bear well in the region west of the Cascades. Handle like peach trees.

Southwick—This is a local variety that has borne regularly for many years under Willamette Valley conditions. Original tree has been growing near Rickreall for over 50 years.

Tilton—A large fruiting commercial variety.

Wenatchee Moorpack—One of the leading commercial varieties of Eastern Washington.

Perfection Apricot—A fine new Apricot that looks like the best bet for Western Washington and Oregon. Hardy. Bears very large fruit and lots of it. High quality.

Price: Each 1.25.
10 Rate, \$1.00 each.
25 Rate, 80 each.

MAZZARD CHERRY SEEDLINGS

	Each	10 Rate	100 Rate
6 to 8 ft.	35c	30c	25c
4 to 6 ft.	30c	25c	20c
3 to 4 ft.	20c	20c	15c

SWEET CHERRIES

	Each	10 Rate	100
4 to 6 ft. whips.....	60c	50c	45c
3 to 4 ft. whips.....	50c	40c	35c

Bing, Lambert and Royal Anne require other varieties for pollenizers as they will not bear well planted either alone or with each other. We list several pollenizers below. Our cherries are all grown on mazzard root—the long-lived root.

Bing—A large, solid black cherry. High quality. Ripens with Royal Anne.

Black Republican—Black fruit, smaller than Bing. Used largely as pollenizer for Bing, Lambert and Royal Anne.

Black Tartarian—Ripens earlier than main crop cherries. Used as a pollenizer.

Hoskins—A splendid pollenizer with fruit resembling that of Bing, but a little smaller.

Lambert—Large, heart shaped, purplish-red fruit. Ripens after Bing. Better suited to west of Cascades conditions than Bing.

Royal Anne—Yellow with red cheek. The great canning cherry. Ripens ahead of Lambert.

Waterhouse—A variety resembling Royal Anne, but softer. Used as pollenizer.

SOUR CHERRIES

	Each	10 Rate	100
3 to 4 ft.	60c	50c	45c
2½ to 3 ft.	50c	45c	40c
2 to 2½ ft.	40c	35c	35c

Kentish (Early Richmond)—Medium size, red sour pie cherry. Ripens a little ahead of Montmorency. Used as pollenizer for Montmorency.

Late Duke—Large dark red, half-sour cherry ripening late in July.

May Duke—Medium size, red, half-sour, ripening early June.

Montmorency—The best of the pie cherries. Bears heavily and young.

QUINCE

Varieties: Pineapple, Orange. Price:

3 to 4 ft. whips.....	50c
2 yr. branched.....	75c

ITALIAN PRUNES

	Each	10 Rate	100
6 to 8 ft. whips	45c	35c	30c
4 to 6 ft.	35c	30c	25c

Italian—The great canning and drying prune. Medium size fruit. Ripens in September. The best canning of the plum family.

PLUMS

(Prices—same as Apples)

Plums—In approximate order of ripening.

Beauty—Early, heart shaped, red. Good.

Apex Plumcot—A cross between a plum and apricot.

Peach Plum—Large. Early.

Santa Rosa—Purplish-red with amber colored flesh. One of best plums for local conditions. Quality high.

Burbank—Early. Productive. Good quality.

Green Gage—Green color skin and flesh. Ripens late August. Good quality.

Satsuma—Red skin and flesh. Fine flavor. Productive when planted with Burbank or other varieties.

Blue Damsun—Small, blue skinned. Used largely for jam and preserves.

Hungarian—Large, late. Purplish red. Fair quality.

Petite (French)—Small fruited, sweet prune.

Date—A strain of Petites with larger fruit and larger pit. Good quality.

Silver—Large, sweet, yellow. Late.

ALMONDS

We offer several local varieties that produce well under Willamette Valley conditions. Soft-shell varieties of high quality.

Varieties: Roy and Craven.

Price—same as Peach.

WALNUTS

Every home orchard should contain walnut trees. They can often be used as shade trees around the home. We offer only grafted Franquette which is the best variety for Northwest conditions. Plant on well drained soil. Trees larger than 3 to 4 ft. grade must either be cut back heavily, else shipped express.

	Each	10 Rate	100
8 to 10 ft.	\$2.00	\$.....	\$.....
6 to 8 ft.	1.50	1.35	1.25
4 to 6 ft.	1.25	1.10	1.00
3 to 4 ft.	1.00	.85	.75
2 to 3 ft.75	.65	.50

FILBERTS

Filberts are the most productive orchard crop west of the Cascades. Barcelona is the main commercial variety as yet, with DuChilly, Daviana, Sicily and White Avelnie as pollenizers; 10% of a planting should be pollenizers. Every home planting should have a few filberts. We cannot supply pollenizers except where we supply the Barcelonas and then only 10% of an order can be furnished in pollenizers, as our supply of the latter is very limited. Price of two-year transplanted trees:

	Each	10 Rate	100 Rate
2 to 3 ft.	45c	40c	35c
3 to 4 ft.	60c	55c	50c
4 to 5 ft.	75c	70c	65c

Royal Filbert—The largest and most attractive of all filberts. A fine variety of our own origination. Supply limited to small size trees this year.

18 to 23 inch trees, each..... \$1.00
2 to 3 ft. trees..... 1.50

FIGS

These are seedless varieties that do well under conditions prevailing west of the Cascades. Excellent for eating fresh as well as for preserves. Require well drained soil.

Latturula Honey—A white fig that bears 2 crops, annually.

Price: 2 to 3 ft. grade, \$1.25 each.

GRAPES

Caco—A large red grape. One of best.

Concord—Best known grape. Ripens late.

Hubbard—Early blue. High quality.

Island Belle (Campbell Early)—Early, large blue.

McPike—Very large blue. Ripens just after Island Belle.

Niagara—White.

Thompson Seedless—A California variety that often matures here.

Worden—Large blue, ripens just ahead of Concord.

Price: 25c each; \$2.50 dozen.

NEWER VARIETIES

Fredonia—Blue. Medium size. Fine quality.

Golden Muscat—A sweet, juicy golden colored California type grape that succeeds here.

Fine.

Ontario—Fine quality white.

Salem—Good size clusters of pink fruit.

Urbana—Dark pink.

Portland—White. Very promising. Early.

Price: Newer varieties, 35c each.

Mary Washington Asparagus—Plant in rich, well-manured soil for best results.

2-year plants, 25c dozen; \$1.25 per 100.

Rhubarb—Riverside Giant and Strawberry.

2 for 25c.

COMBINATION CHERRY TREES

These are fine, husky trees with two and three varieties growing on a single tree. Sweet cherries must have a pollenizer to produce well. We have grafted a Hoskins on each of these trees for this purpose. It is a good quality cherry that resembles Bing. The other two varieties used are Lambert and Royal Anne. Plant one of these trees in the back yard for shade as well as for a long season of production.

Price:

2 variety combinations, \$1.50 each.

3 variety combinations, \$2.00 each.

3 variety, extra select, \$2.50 each.

Note. We have a few combination apples trees at \$2.00 and \$2.50. Next year we will offer combination plum, pear and apple trees in considerable variety.

BERRY PLANTS

One can get into production with berries more quickly than with any of the tree fruits. Everbearing strawberries will produce a crop in late summer and early fall of the same year as planted, if watered. Other strawberries and most cane berries will produce a crop the second summer. By planting several varieties of each kind of berries the season will be extended. You can cut the cost of living and at the same time greatly enrich your table by planting a good berry patch. Plant liberally to insure a plentiful supply for table and canning.

For the home garden space berries as follows: Strawberries, 18 to 24 inches in the row; red raspberries, 3 feet; black raspberries, 5 feet; logan, boysenberries, grapes and youngberries, 7 to 8 feet.

RED RASPBERRIES

Newbough—Heavy producer of fine, very large berries. One of the new varieties that is an excellent variety. Should be in every home planting.

Taylor—New. Heavy producer of immense, high quality berries. This and Newbough should be in every garden.

Latham—Hardy, good bearer, Late.

Cuthbert—The old standard commercial variety. Fine quality but not a heavy producer.

Lloyd George—A good producer of good quality fruit. With irrigation this variety often produces a good fall crop.

St. Regis—An ever-bearer.

Price: \$1.00 per dozen for 2-yr. transplants.

(Note. We can supply Newbough suckers at \$2.50 per 100. For home plantings, however, we advise the 2-year transplants.)

Munger Blackcaps—A very fine variety for home use; 2 year transplants, 3 for 50c; \$1.50 per dozen.

Santiam Wild Blackberry—A selection of our native wild blackberry that is in commercial production. 2-yr. transplants, 10c each; \$1.00 per dozen.

PACIFIC BLACKBERRY—A sensational new berry. A cross between our native wild blackberry and loganberry. As large and as productive as the loganberry with the color and quality of the native blackberry. Tip plants only. March shipment; \$1.50 dozen; \$10.00 per 100.

Youngberry and Boysenberry—Somewhat similar. Plant both to lengthen season. Youngberry ripen first. Fine for table and canning.

Loganberry—A fine canner.

2-yr. transplant, 10c each; \$1.00 per dozen.

CURRANTS AND GOOSEBERRIES

Perfection—Fay and Cherry currants.

2-yr. bushes, 15c each; \$1.50 dozen.

1-yr., 10 each; \$1.00 per dozen; \$6.00 per 100; \$45.00 per 1000.

Red Lake Currant—New. Produces the largest berries of all currants. Immense clusters. 35c each; 3 for \$1.00.

Oregon Champion Gooseberry—The standard canning berry. Price same as currants.

Large English Gooseberry—Grows much larger than our American varieties. Eaten by the English when ripe, when it is red in color.

35c each; 3 for \$1.00, postpaid.

TRANSPORTATION—These are sales-yard prices. On shipments outside of Willamette Valley the buyer pays the express charges. On shipments within the Willamette Valley add 15 cents for first \$1.00 and 5 cents for each additional \$1.00 on order and we will prepay the parcel post, except for trees too large for parcel post, such as combination Cherry trees, Walnuts above 6 feet and large shade trees. These latter will either be cut back to mailing sizes or else they go forward express at the buyer's expense.

STRAWBERRIES

Marshall (New Oregon). The standard fresh berry found on our market. An excellent home berry.

Redheart—Best commercial canning berry. A little later than Marshall.

Dorset—An early red variety of good quality. New.

Fairfax—Another of the newer berry varieties.

Price: 20c dozen; \$1.00 per 100; \$4.50 per 1000.

EVERBEARING STRAWBERRIES

Where water is available for irrigation these varieties produce both spring and fall crops.

Mastodon and Gem—35c doz.; 60c for 25; \$2.00 per 100.

Rockhill—The best of all everbearing varieties. Makes very few runners. 85c dozen.

PLEASE READ BEFORE ORDERING

Our Salem-grown stocks are acclimated to that region located west of the Cascades in Washington and Oregon.

On shipping orders we expect a payment of at least 20% before shipment. If customer wishes the balance to be paid COD we add 13c to the COD amount to cover postal costs for this service. We pay the postage but not the COD charge. This charge is avoided by sending in full payment before shipping date.

GUARANTEE—We guarantee all stock to be true-to-name, free from disease and reach you in a live and healthy condition. However, we do not guarantee stock

ROSE BUSHES

Price (unless otherwise priced)

- No. 1 grade—35c each.
No. 2 grade (the chain store grade) — 20c

Nowhere does the Rose grow better than in the Pacific Northwest. The Rose blooms from spring till fall in this favored climate.

No home should be without roses. Our list includes the best varieties known.

Angele Pernet—Coppery orange-yellow.
Autumn—Burnt orange.
Austrian Copper—Single. Copper red on one side of petals and yellow on reverse.
Ami Quinard—Long, pointed, semi-double, fragrant, very dark red.

Betty Uprichard—Copper-pink.

Catalonia—Vermillion. A different shade in roses. New. A beauty.

Caladonia—White. Well formed.

Cecil—Yellow. Large flowers.

Cecile Brunner—Tiny, double, pink flowers.

Chas. P. Kilham—Well formed buds. Oriental red suffused with orange.

Condesa De Sastago—A Spanish beauty. Glowing orange-scarlet on inside and yellow on reverse. Best hot weather rose. One of finest roses in years.

Conqueror—New saffron yellow buds.

Crested Moss—Double pink flowers.

Christopher Stone—New. Gold medal at Portland Test Garden 1937. Best red in years.

Blazing crimson. Heavy producer of perfumed flowers.

Cuba—Semi double orange-scarlet. Showy.

Dame Edith Helen—Shell pink. Well formed.

Dainty Bess—Best single. Rose pink.

Duquesa de Penaranda—A gold medal rose. Coppery apricot.

Edith Nellie Perkins—Orange, buff inside. Coppery pink outside. A fine rose.

E. G. Hill—A large dazzling scarlet. Fragrant.

Etiole de Hollande—Dark velvety red. One of best reds.

Ellen Poulsen (polyantha) — Dark pink, double, continuous bloomer.

Erna Tersendorf (polyantha) — Pink, double.

Feu Jos. Looymans—Bronzy yellow flowers.

Frau Karl Druski—Large white.

Frederico Casas—A bicolor of orange-red and yellow.

Golden Dawn—Sunflower-yellow.

Golden Emblem—Golden yellow. Fine.

Golden Gleam—A fine yellow.

Gruss en Teplitz—A very hardy crimson.

Glori Mundi (polyantha) — Double, orange-scarlet.

Golden Salmon (polyantha) — Similar to Glori Mundi but less double.

Heinrich Wendland—Beautiful combination of golden yellow and vivid nasturtium-red on opposite surfaces of petals.

Hinrich Gaede—Copper orange. Best of new highly colored roses. A most striking beauty.

Hadley—Rich crimson.

Hoosier Beauty—Glowing crimson.

Improved Lafayette (Floribundi) — Large, glowing red in beautiful loose clusters. Constant bloomer.

Imperial Potentate—Brilliant, large well-formed pink. One of best.

Innocence—Single, pure white.

Irish Elegance—Single. Bronze pink to salmon pink.

Irish Fireflame—Single. Orange shaded red. Long pointed buds.

Isobel—Single. Orange-pink.

Joanna Hill—Well shaped, light yellow.

Julien Potin—A dandy pure yellow.

K of K—Semi-double brilliant scarlet.

Lady Hillingdon—Long, pointed apricot buds.

Los Angeles—Perfectly formed flame pink.

Lulu—Slender buds of coral-apricot. The finest boutonniere rose.

Mayor Baker—A spectacular new rose. Resembles Cuba in form but greatly intensified in color.

McGreedy's Scarlet—Large, brilliant scarlet.

Margaret McGreedy—Large, orange scarlet.

Mable Morse—Clear yellow.

Mme Butterfly—Flesh pink, beautifully formed.

Mme Edu Herriott—Coral pink shaded yellow and scarlet. One of best.

Mme Caroline Testout—"The Portland Rose." Clear pink. Very hardy.

Mme Jules Bouche—White.

Mrs. E. P. Thom—One of best yellows.

Mrs. P. S. Dupont—A fine yellow with long pointed buds.

Mrs. Sam McGreedy—Copper-orange flushed red.

Mrs. G. A. Van Rossen—Yellow with orange-brown veins.

Padre—Brilliant coppery scarlet.

Pres. Hoover—Long pointed buds of orange scarlet opening into large orange and pink flowers. Vigorous. One of best roses grown.

Rapture—Pink. An improved Mme Butterfly.

Rev. Page Roberts—A good yellow.

Roslyn—Golden yellow.

Southport—A fine new red.

Senori Gari—New. A combination of gold, buff and apricot. Dainty buds.

Sunshine—Floribunda class. Medium size blooms in clusters. Orange turning to coral with orange over-crest. Compact bushes, very floriferous.

Soeur Therese—Large, long, dark, golden buds.

Sou de Mme C. Chambard—Large, semi-double, fragrant; outer petals rich rose red; inner petals deep rose-pink. New.

Talisman—The most popular rose in ten years. A mixture of red, yellow and copper.

Vanguard—Very vigorous to ten feet. Orange-salmon and copper.

Ville de Paris—Sunflower yellow. Well shaped buds.

NEWER ROSES

Price 60c Each

Karen Poulsen (floribundi)—Brilliant, unfading, large single scarlet flowers in clusters. A constant bloomer.

The Doctor—Long pointed buds of exquisite silvery pink. Very fragrant.

Mme Jos. Perraud—Long, slender, pointed buds of nasturtium-red.

Katherine Pechtold—Long point buds of old gold and orange and copper. Striking color.

CLIMBING ROSES

50c Each

What plant produces a more spectacular show than a good climbing rose. Train climbing roses on fences, trellis, against old sheds and garages. Surround your yard with climbers and obtain privacy along with beauty. We offer the finest list of climbing roses to be had. New as well as old varieties.

American Pillar—Single. Petals apple blossom-pink shading to white at center. Vigorous growing.

Apeles Mestres—Immense blooms. Clear yellow.

Climbing Cecile Brunner—A vigorous climber with tiny pink flowers.

Climbing Dainty Bess—A climbing form of this charming, rose pink variety. Single.

Cl Etiole De Hollande—Dark red.

Cl Golden Emblem—Fine yellow. Vigorous.

Cl Hoosier Beauty—Vigorous, dark crimson.

Climbing Los Angeles—Coral-pink like the bush variety.

Cl Lady Hillingdon—Long apricot buds.

Cl Mme Edu Herriott—Gorgeous orange and coral flowers.

Cl Talisman—Vigorous. Produces flowers of same brilliant colors as does the bush variety.

Cl Pres. Hoover—A vigorous sport of bush Hoover and producing similar flowers.

Countess of Stradbroke—New. Gorgeous, unfading red flowers. Everblooming. One of very best climbers grown.

Dr. Van Fleet—Vigorous. Flesh pink.

Kitty Kinninmonth—Large, ruffled, semi-double flowers of clear pink.

Le Reve—Beautiful foliage. Semi-double yellow flowers.

Mermaid—Large single, sulphur-yellow flowers. Everblooming.

Mme Georgie Staechlin—Pink flowers with curled petals.

Paul's Lemon Pillar—White with trace of lemon. Large, well formed flowers. Best white climber.

Paul's Scarlet Climber—Great clusters of bright scarlet flowers. Most used of all climbers.

Reveil Dijonnias—A remarkable new climber from Portland Test Gardens. A striking bi-colored flower of golden yellow suffused with pink. Recurrent blooming. If you want an unusual beauty try this one. It is different.

Silver Moon—Single white. One of rankest growing bushes known.

Sou de Claudius Denoyel—A fine red climber. Velvety crimson, recurrent bloom. Large flowers, well formed. A fine red climber.

PATENTED ROSES

Alezane—Reddish-brown apricot. \$1.00.

Alice Harding—Golden yellow, flecked carmine. \$1.00.

Anne Poulsen (floribundi) — Semi-single scarlet. 75c.

Better Times—Cerise. \$1.00.

Blaze—Climber. An everblooming Paul's Scarlet. \$1.00.

Countess Vandal—Long buds, coppery bronze. \$1.00.

Dicksons Red—Glowing scarlet-red. \$1.00.

Doubloons—Yellow climber. \$1.00.

Eclipse—A really fine long bud of yellow. \$1.00.

Eternal Youth—Long pointed buds of soft pink with yellow at base. \$1.25.

Gloaming—Pink overlaid with salmon. \$1.00.

Golden Main—Pure yellow. \$1.00.

Hector Deane—\$1.25.

Mary Hart—A red Talisman. 85c.

Matador—Large crimson. \$1.00.

McGredys Sunset—Outside yellow; inside yellow flushed scarlet. \$1.25.

McGredys Triumph—Pink, cerise and yellow. \$1.00.

Rex Anderson—White with ivory overcast. \$1.25.

Satan—Very dark velvety carmine. \$1.25.

Saturnia—Cardinal red, reverse salmon-yellow and copper. \$1.00.

Worlds Fair (floribundi) — Large blackish-scarlet petals surrounding yellow stamens. \$1.00.

Charlotte Armstrong—Blood-red in bud opening to cerise. Beautifully formed. \$1.50.

Crimson Glory—Long pointed buds of velvety-crimson. \$1.25.

Flash (climber)—Orange-scarlet with backs of petals scarlet. \$1.00.

RMS Queen Mary—\$1.25.

Texas Centennial—A cerise-red Pres. Hoover. 60c.

SHADE TREES

We have other shade trees than those listed here and can supply many of those listed in larger sizes. Write for prices.

Trees up to six feet can be shipped parcel post. Larger trees must go express or freight.

European White Birch—Narrow, upright upright grower with white bark.

Black Locust—A rapidly growing tree for quick shade.

Chinese Elm—A rapid growing shade tree that does well in dry locations.

Oregon Maple—The big leaf maple. Grows fast and makes a large tree.

Norway Maple—A hard maple. Leaves smaller than the above. Want good drainage.

Mountain Ash—Erect growing trees with orange-red berries.

Russian Mulberry—A fairly rapid grower with fruit that resembles blackberries.

Carolina Poplar—Rapid growing wide spreading tree.

Lombardy Poplar—Tall narrow, fast growing.

Weeping Willow—A very rapidly growing tree. Spreading. Does well in damp spots.

Prices of above varieties:

2 to 3 ft. trees.....\$.50

3 to 4 ft. trees.....\$.75

4 to 6 ft. trees.....\$ 1.00

Schwedlers Maple—Leaves red in spring turning green later. Price 25c higher than above list.

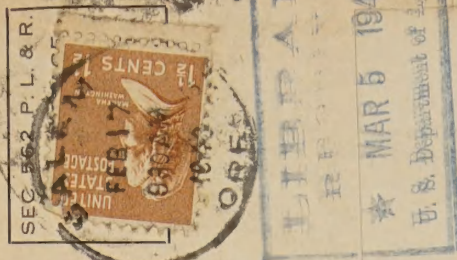

Cutleaf Weeping Birch—Dainty growing tree with white bark. 25c higher per tree than above list.

Variegated Box-elder (Silver Maple)—Silver or gold with the green in each leaf. Slow grower. 3 to 4 ft., \$1.00; 4 to 6 ft., \$1.25.

Horse Chestnut (Buckeye)—Pink or white flowers, color not guaranteed. 3 to 4 ft., \$1.25; 4 to 6 ft., \$1.50.

American Persimmon—2 to 3 ft., \$1.00.

Black Walnut—4 to 6 ft., 75c.
